OKAY FACT

MORE SUGAR PLEASE

Instead of spraying with toxic chemicals, Neutral® cotton farmers use biological pesticides like sugar water. Ants love sugar and now have a new best friend and food supply in the cotton plant, which they'll defend from intruders like beetles and pest attacks.

Okay ants. Okay crop protection!

it's just okay!

OKAY COTTON IN CONVERSION

TIGER COTTON

Only 1.4% of the world's cotton is certified organic – we're here to change that. That's why we started Tiger Cotton®, a project in collaboration with WWF India.

Our goal is simple: To support cotton farmers in converting from conventional to organic farming, benefiting both people and the planet.

So far, more than 4,000 farmers have joined – and Tiger Cotton® has now grown into a full-scale, label free product line!

Below you can see a map of our first Tiger Cotton project in Madhya Pradesh. When the tiger wanders from one nature reserve to the other the cotton fields function as an important tiger corridor. Without the toxic impact of pesticides in cotton farming the tiger, the wildlife, and the farmer can thrive.
