Brand story

Kay Bojesen believed that lines should smile.
That design should feel alive, inviting, and full of character.

Since 1922, his creations have brought joy to homes, standing out as originals in a world of copies. And as trends come and trends go, Kay Bojesen remains an icon.

Some call the design playful some call it Danish Design heritage.
We call them originals. Originals that are more than just décor.
They were designed as durable toys but have become expressions of personality, imagination, and individuality.

Designed to fit any home, they spark conversations by bringing more presence to a room than they take up.

We believe design is more than function. And by blending heritage with a playful spirit, we prove that spreading joy can be a function in itself.

Carefully crafted to last, our wooden friends are as much a joy to give as they are to keep. Because the best design doesn't just look timeless — it feels alive.

Originals since 1922

Kay Bojesen Keychains

Take Kay Bojesen’s beloved classics and your love for original Danish design with you everywhere. On your bag. On your belt. Or with your car keys. The miniature Kay Bojesen keychain is crafted from FSC®-certified wood, and is completed with an elegant and practical cord in genuine leather. The cord can be adjusted up and down in relation to the figurine, allowing you to create your own unique look.

At the top, a large keyring engraved with Kay Bojesen Denmark serves both as a stylish detail and a functional element with its practical carabiner clasp for easy opening and closing. Below the figurine, three additional keyrings provide ample space for all your keys.

With a stylish and decorative keychain from Kay Bojesen Denmark, you can add a personal touch to your everyday life and bring original Danish design on the go – whether you choose this version featuring the classic songbird or the legendary monkey as your ever-loyal buddy.

Kay Bojesen was a master of adding small details to his wooden designs. He found magic in nature’s own material, and with his extraordinary talent for shaping wood, one whimsical figurine after another took form in his imagination and came to life in his hands. Two of his greatest classics are undoubtedly the monkey and the songbird. And even though the songbird in this keychain edition has been scaled down to just 4.5 cm in height, it still carries a rich legacy of Kay Bojesen’s design heritage wherever you go.

The key ring is delivered in a reusable non-woven bag and provided with a Kay Bojesen tag.

Kay Bojesen x Team Rynkeby – special edition

The songbird pair featuring the Vito lovebirds was created in collaboration between Kay Bojesen Denmark and the international charity project Team Rynkeby. With this special edition of the iconic lovebirds, they join forces to bring hope and strength to children with serious illnesses in Denmark.

For each Vito Lovebirds sold, DKK 40 is donated to Team Rynkeby's fundraising in support of the Danish Childhood Cancer Foundation and the Danish Lung Foundation's vital work.

NB: Proceeds from this product are donated exclusively to the Danish fundraising campaign.

Monkey Vintage

Kay Bojesen's iconic Monkey is renowned for spreading much of joy across all ages.

With the small monkey in FSC certified beechwood painted in original colours from the archives, the joy is now even greater.

This coloured version is inspired by the colours of an original wallpaper that Kay Bojesen designed for the child's room in the late 1940s. Distinctly, you sense the originality and retro vibes in the dim colours beautifully bringing out the stylish look of the beechwood. New, still nostalgic.

The painted monkeys cool and confident put Kay Bojesen's original stories made of wood in a new context while remaining iconic due to the classic colours from his original universe.

Kay Bojesen Guards

Kay Bojesen is one of the big Danish designers. He was able to turn wood into original stories like no other. He had a knack for bringing the wood to life. Or as he put it: "Making the line smile". And the lines certainly smile in each of the Wooden Animals – which have all become iconic.

Take, for example, the famous Royal Guards with flags, sabres, drums and gun, which are inspired by one of Denmark's national symbols from Amalienborg Palace Square. Kay Bojesen first created the soldiers in 1940 in honour of King Christian X's 70th birthday and as tribute to the Danish king.

The mark of responsible forestry

Kay Bojesen Bear

The original Bear was created back in 1952, when Kay Bojesen was inspired by a story from the Copenhagen Zoo about the little bear cub Ursula, who was too small to live with the other bears and was therefore raised at home by the zoo inspector until she was old enough to live with the older bears. Kay Bojesen made a little bear cub, placed it in a cradle, and besides telling the sweet story in wood, he also ended up creating a world-famous Danish design icon.

The large Bear is handcrafted with love and care in precisely the same way as the others in the series have been since the beginning of the 1950s when the Bear was first created with its characteristic open arms, inviting a real bear hug. Like its smaller family members, the Bear is made from FSC®-certified maple and FSC®-certified oak, which guarantees that the trees used for production are planted, grown, and harvested responsibly. And the natural life, grain patterns, and characteristics inherent in the wood really come to life in the large version of the Bear, where everything is scaled up.

Kay Bojesen Elephant

The large Elephant is crafted by hand with love and care, in exactly the same way as the other animals in the series have been since the early 1950s, when the Elephant came into the world with its distinctive long trunk and friendly, attentive eyes that invite a strong, loving hug. Like its other family members, the Elephant is made from FSC®-certified oak, ensuring that the wood used in production is planted, cultivated, and harvested responsibly. The natural wood's inherent life, grain patterns, and characteristics are truly brought out in the large version of the Elephant, where everything is scaled up. Kay Bojesen's large Elephant measures 22 cm in height, and with a length of 28 cm, it is both an exquisite collector's item and an impressive gift idea for anyone who appreciates classic Danish design – whether for a major anniversary or a milestone birthday.

Kay Bojesen Liliput

Small, mini, tiny. Now three of Kay Bojesen's minimalist wooden figures come in an even smaller mini size under the heading Liliput.

The Bear, the Elephant, and the Hippopotamus have shrunk and are if possible even cuter than before. Meet the Bear at 9.5 cm, the Elephant at 7.5 cm, and the Hippopotamus at just 6 cm.

Completely irresistible and charming, they are ready to bring smiles to everyone who loves classic Danish design and Kay Bojesen's smiling lines.

Kay Bojesen Wooden Birds

The Birds series is a collection of birds with unique names in a wide range of cheerful colors. All the birds in the Birds series are designed based on Kay Bojesen's original drawings from the 1950s and produced in FSC®-certified wood, which guarantees that the trees are planted, grown and felled responsibly. Kay Bojesen designed with soul, humor and a twinkle in his eye, looking at the world from a child's perspective when he created new stories in wood.

There should be room for imagination to unfold around the figures, and the simple design language, the bright colors and the friendly expression have become his signature.

When the Kay Bojesen brand was founded, it marked the start of a story about a craftsman with a great sense of humour and plenty of curiosity. Kay Bojesen created his animals and figures based on the philosophy that good design should be accessible to everyone, and over time Kay Bojesen has become synonymous with original Danish design.

Kay Bojesen is the epitome of original Danish design; his soft, round shapes and smiling lines create original stories in wood. Kay Bojesen's designs have always been based on the world of children. A world full of curiosity and imagination, which has inspired many of the iconic characters we know today.

Danish quality design through generations

Some of the designs Kay Bojesen is best known for include the imaginative monkeys, the soldiers from the Royal Danish Guard and other wooden animals – a happy family filled, the highest quality and first-class materials. Kay Bojesen's collection is a real tribute to the inner child – and appeals to children, adults and fans alike looking for beautiful design objects that can stay with them throughout their lives.

Kay Bojesen is the story of one of the strongest and most loved brands in Danish design history, with classics in a class of their own. A creative, playful filled with love and the highest quality in exquisite materials. With smiling lines and unique shapes, Kay Bojesen turned wood into original stories that appealed to all generations.

Kay Bojesen Wooden Figurines

The series of wooden figurines is based on Kay Bojesen's basic idea that toys should be simple, solid and inspire play. Kay Bojesen also worked based on the philosophy that wood only comes to life when it gets a story – a philosophy that was consistent with all his figures. That foundation and Kay Bojesen's unique talent has turned his magical world of Wooden Figurines into beloved classics and design icons that will last for decades to come.

Hans Christian Andersen Wooden Figurines

In 2021, the Hans Christian Andersen's House museum opened in Odense, marking the start of a collaboration between the museum and Kay Bojesen Denmark.

This has resulted in new interpretations of the beloved characters from these world-famous fairy tales rooted in Kay Bojesen's universe of original stories made of wood.

JUNA

Brand story

What makes a house a home?

Is it what we fill it with?
What we hang on the walls?
Who we share it with?
In the end, it's all about atmosphere.

All the things that make us feel right at home.

Because everything you see, feel and touch
helps create your home:

It's what we wrap around us when we step out of the shower.
What we relax in on a lazy morning.
And what we feel against our skin every night.

It's about the little details:
The texture of the tablecloth, the pattern on the tea towel,
the colours or the stitching – these elements make all the difference.

A difference we strive for each and every day.
Because what we surround ourselves with should be of a quality we can
trust. That's why Juna is made with respect for the people who use it
now, and for generations to come.

All you have to do is choose what moves you.
After all, creating a home is about everything that lets you
feel the atmosphere.

Bæk&Bølge

Bæk&Bølge Bed linen

Bæk&Bølge is a range of high-quality bed linen in beautiful, natural colours.

Juna is all about the joy of surrounding yourself with textiles that make life more beautiful, soft, colourful and fun. That's why colours and patterns are a big part of Juna, and they give the bed linen a cosy and unpretentious feel. There is something familiar about the classic checked and striped textures, which have been interpreted using a modern colour palette across the Bæk&Bølge range. And this combination of nostalgia and innovative elements contributes to creating a unique and cheerful atmosphere to both your interior design.

Juna is all about enjoying life and the pleasure of living with textiles that make life more beautiful, softer, more colourful, and fun. Freshen up the bathroom with the beautiful Check towel in a classic and warm sand nuance. The coloured Check towel has a subtle geometric pattern, measures 50x100 cm or 70x140 cm and is made of 100% organic cotton, OEKO-TEX®-labeled so you can take a shower with a clear conscience.

KÄHLER

DANISH DESIGN SINCE 1839

Brand story

When Danish potter Herman J. Kähler turned his first vase in his small ceramics workshop in rural Næstved in 1839, he had no idea that Kähler would become a household name.

Not because of one artisan's creation, but through our design collective of renowned artists and creatives who have, over time, crafted vases, sculptures and dinnerware that have gone down in Danish design history.

Designs that have found their way into the homes of those with discerning tastes. With distinctive sculptural designs that speak to us.

That's Kähler.

It is design that brings a dining table to life, tells new stories on a window sill, and enhances the appeal of a simple posy of wildflowers.

Because Kähler leaves a distinctive and lasting impression.

From caring, creative hands.

Exquisite glazing techniques and intuitive brush strokes.

To playful aesthetics and hand-carved details.

So when you hold our ceramic pieces, you can see how each one is shaped by tradition.

Shaped by tradition

Gingerbread houses

They look good enough to eat. Beautifully decorated gingerbread houses with white glaze, paned windows and snow on the roof. The gingerbread house is a real Christmas cake classic that exists in different versions in many countries.

And if you've tried your hand at the cake art of creating one yourself, you know that it's not entirely easy. But with the gingerbread house from Kähler Gingerbread, you are sure of success and, on top of that, you get extra Christmas atmosphere in the home when the light flows out of the gingerbread house's hand-cut windows.

Handmade Urbania houses

Urbania is an elegant and modern series from Kähler, where astringent look and handmade design traditions meet the warmth of tealights, creating both style and cosiness on dark December nights. When the days get shorter, we turn up the cosiness indoors, and this is when the candle houses from the ceramic urban collection, which is always cast out a beautiful light, are just perfect. When placed in the middle, the tealight shines out beautifully through windows and doors, creating a cosy glow while the shadows dance and play.

Hammershøi Christmas

Hammershøi Christmas is a classic and modern Christmas series that appeals to everyone whether you're mad about Christmas or mad about design. The classic Hammershøi service truly epitomises Kähler's handmade design traditions. And in the hands of artist Rikke Jacobsen, the Hammershøi series has been infused with a touch of Christmas magic from the snow-covered and enigmatic world of winter forests, inspired by both botanical and delicate contrasting compositions.

The design of the Hammershøi Christmas manages to be both simple and rational and sophisticated and traditional in one. And even though the decorations on the service are kept in a modern line, the white Hammershøi porcelain provides the perfect background to ultra-classic Christmas motifs such as the nutcracker, the woven Danish Christmas heart and the Christmas star.

Omaggio Circolare

Omaggio Circulare Vases – Hand-painted *Design Stilleben*

With the Omaggio Circulare vases, which are produced using leftover materials from previous productions that would otherwise have gone to waste, Kähler embraces both nostalgia and the present moment, and welcomes three new members to the Omaggio family.

Fresh flowers and authentic design create life, positive energy and a sense of presence throughout the home. The introduction of the three new Omaggio Circulare vases gives you brand-new opportunities to combine the love of flowers, iconic ceramics and Kähler's handmade design traditions with a desire for responsible production.

Since 2007, Kähler and Omaggio have been synonymous with one another. Omaggio Circulare is nothing less than a responsibly produced reinterpretation of the modern classic. The shape is still the classic Omaggio shape. Now, however, the manufacturing focus for the vase series is on reducing environmental impact by recycling discarded ceramics and materials from other productions – and giving them new life.

The Omaggio vases are available in three different sizes. The large Circulare vase is 31 cm high and is joined by the two smaller vases, which measure 20 cm and 12.5 cm respectively. All three vases have the same black painted base and unique raw top in untreated ceramic, giving the series its unmistakable nostalgic touch. This can be traced back to Kähler's proud craftsmanship traditions while also pointing towards the future with great confidence. The vases share a beautiful look brimming with depth and vibrance.

LYNGBY PORCELÆN

Brand story

Since its foundation in 1936 Lyngby Porcelæn has shown that less is truly more.

That every curve, every edge, and every line carry a meaning beyond the functional. That inspiration can be found everywhere, from art and architecture to nature.

And most importantly: that beauty isn't just about how something looks, but what it allows you to create.

Our timeless shapes let you shape your own style. Made with precision and in a minimalistic design that never takes over but always enhances whatever it holds.

Our heritage of uncompromising quality and design mean every piece is as relevant today as it will be in years to come.

Choosing Lyngby Porcelæn is a choice that lasts and a mindful alternative to fleeting trends. Each design is an invitation to make it your own.

To mix, match, fill, and reinvent your space in ways that reflect who you are.

Because great design doesn't dictate – it inspires.

Lines that inspire

Rhombe Earth

The earth is alive and rich. Everything sprouts and grows from the earth – just like the pattern on Lyngby Porcelæn’s Rhombe tableware, which elegantly opens up and unfolds on the different parts of the series.

The Rhombe Earth collection is designed in subtle, earthy colours, where every colour, just like in the Rhombe Colour series, has been carefully selected by Stilleben, aka Ditte Reckweg and Jelena Schou Nordentoft.

Rhombe Cutlery

Create harmony in your table setting with the iconic Rhombe signature. With the Rhombe cutlery set from Lyngby Porcelæn, you can now achieve a unique coherence across all Rhombe series and enjoy the added depth and tactility that a beautiful cutlery set in 100% recycled steel brings with its stylish lines of perfection.

Each piece of cutlery is created to harmonise with the details in the porcelain, giving you opportunity to create precisely the feeling of luxury that makes every meal a sublime sensory experience – composing your own personal masterpiece for celebrating all the small moments and transform everyday life into something special, making every festive gathering unforgettable with a complete style and finesse. Knife, fork, spoon, and teaspoon. Four of each. Of course, with the familiar graphic Rhombe pattern presented on all 16 pieces of the new cutlery, placed on the handle and raised as a low relief, just as you know it from the series' tableware. It is not only beautiful and stylish but also ensures an exquisite tactile sensation in your hands when you hold the cutlery.

Twist Vases

An elegant meeting of nature and culture. With the unique Twist vases from the Lyngby series, you get simple, stylish, and sculptural porcelain magic – just as we know it from Lyngby Porcelæn, where archive designs, classic shapes, and pure aesthetics unfold in a perfectly crafted design twist with lines that inspire. Today, the Lyngby design has established itself as a true classic in Lyngby Porcelæn's collection – every piece defined by the inspiring lines that characterise its minimalist and elegant design, giving the Lyngby series its distinctive expression.

With Twist, Lyngby Porcelæn takes a stylish turn onto new design paths, offering you a vase inspired by the natural formations found in nature – the bark of a tree, spiral-shaped galaxies, curved flower stems, and ancient formations in the landscape. In addition to this 18 cm vase, the Twist vases are also available in sizes of 25 cm and 31 cm, complementing the rest of the Lyngby series.

Tura

Design Philip Bro Ludvigsen

The Tura range of vases is a new classic from Lyngby Porcelæn, which with its elegant sizes and shapes, and plenty of edge and attitude, will guarantee you a modern and expressive style in your interior design. With their voluminous design and huge personality, Tura is a range of vases that just have to be seen. Distinctive and expressive, they naturally catch the eye in the room and are almost a sculpture in themselves.

The signature design for Porcelænsfabrikken Danmark – Lyngby Porcelæn is the oblong vase with the iconic flutes, where minimalist and functionalist design is combined with classic craftsmanship and advanced production techniques. When the vase emerged back in the 1930s, there was a tradition of creating vases with ornamentation and decoration. So it attracted a lot of attention with its simple and very different expression, which was more reminiscent of classic pillars.

ARNE JACOBSEN [®] CLOCKS

Brand story

In a world cluttered with devices and distractions,
time is the one thing we too often end up losing.

At Arne Jacobsen Clocks, we believe in giving time the respect it deserves
— not as something to rush through, but as something to appreciate.

Our clocks are more than tools to track the hours; they are timeless icons.
Designed to complement any space, stripped away from the everyday noise.
Each piece is a deliberate pause in our fast paced everyday.
A reminder to slow down, reflect, and value what matters most.

Timepieces crafted to stand the test of time.
They transcend trends, blending form and function
in a way that only Arne Jacobsen could imagine. And in a world
of endless multitasking, sometimes less means everything.
Which is why we say: any space deserves a timeless icon.

Forever keeping up with time

Table Clocks

The table clock with integrated alarm clock was created by Arne Jacobsen Clocks in 1939 and is an early example of Arne Jacobsen Clocks's unique talent for creating industrial, minimalist product design. Even though many years have passed since Arne Jacobsen Clocks designed the table clock, it has not lost its popularity as an interior design object.

Quite the opposite, these table clocks can still be found in many Danish homes and are considered to represent modern, stylish and timeless Danish design. Arne Jacobsen Clocks's designs are recognisable by the fact that the whole must be seen based on the details, and the details create a whole, which is also seen in the iconic clocks.

The table clock has now been put back into production with new graphics and updated features, such as a snooze function and light sensor. The table clocks are thus functional clocks, modern alarm clocks, stylish interior design items and part of Danish design history.

Wall Clocks

A wall clock from Arne Jacobsen Clocks allows you to add functionality, aesthetics and Danish design to your home. When we talk about Arne Jacobsen Clocks wall clocks, we have to go back to 1938–1971. It was during this period that Arne Jacobsen Clocks created his iconic wall clocks, which many associate with the Arne Jacobsen Clocks brand.

Even though many years have passed since Arne Jacobsen Clocks created his iconic wall clocks, they have not lost their popularity as interior design objects. Quite the opposite, the clocks can still be found in many Danish and international homes and are considered to represent modern, stylish and timeless Danish design.

Arne Jacobsen Clocks's designs are recognisable by the fact that the whole must be seen based on the details, and the details must create a whole, which is also seen in the iconic wall clocks.

HOLME GAARD

EST. 1825

Brand story

For 200 years, Holmegaard has pushed the limits to what can be made in glass. Because glass is a living material that can always be formed into something new. It's mercurial. So, before shaping it, you have to understand it. Meaning, glass is not for everyone. It's for those with a passion.

That's why our glass artists and designers take such great care when making our lamps, vases and glasses.

Melding time-honoured craftsmanship with Danish design traditions. But while molten glass eventually hardens, we do not. We continue to develop new ideas, new designs and new series. It's what we do. We challenge, evolve, excel and cherish.

Because if something's worth doing, it's worth doing well. And so the wine glass is more than just elegant, it brings out the aromas in the wine. The beer glass is shaped to enhance the character of your beer. And the light striking the vase transforms it into a sculpture in its own right.

In other words, the quality is uncompromising.

As is what you serve in the glass.
The dinner you make.
The flowers on the table.
And the conversations that follow.
And with Holmegaard on your table, one thing is certain:
there will always be something to talk about.

Sparking conversations since 1822

Bubble Candle holders

The fusion of nature and modern glass artistry. Fuelled by a burning passion since 1825, Holmegaard has been pushing the boundaries of glass craftsmanship with an unwavering focus on the highest quality, creating a wealth of iconic design classics that have shaped Danish glass history. The distinctive interplay of colours. The unique reflections. The dedicated passion.

To celebrate its 200th anniversary, Holmegaard Bubbles presents a collection of candle holders that sparkle with expressiveness and masterful craftsmanship. This four-arm Holmegaard Bubble candle holder stands 14 cm tall and features four mouth-blown borosilicate glass bubbles in jade green, smoke, sapphire blue, and a deeper shade of blue. With four candles positioned at slightly varying heights to form a beautifully composed square, this piece truly elevates your passion for modern Danish glass design.

Will it be the new radiant jewel in your home?

Design With Light

"Design with Light" is a series of lanterns in mouth-blown glass with an organic design language and elegant design details. They create a cosy atmosphere both indoors and outdoors when the candlelight is reflected in the lantern's soft curves. The mobile lantern is handmade by Holmegaard's experienced glassmakers, and Maria Berntsen's glass design and full-grain leather handle make it perfect for the terrace, living room or beach – wherever you need a warm glow in the dark and a cosy atmosphere. With glass and full grain leather, the series has a clean, Scandinavian look and functions as a mobile light source that, all year round, casts a very special light on your surroundings, regardless of where you place it.

Fairytales

Fairytales is a magical Christmas series of hand-painted figurines with optical patterns that nod to the current glass trend. The series creates reflections in glass and a personal scenery of Christmas decorations that you can spread throughout the home. The Fairytales series consists of Christmas trees in different sizes and a pair of elves.

This series of Christmas figurines is the perfect decoration for Christmas. With their varying heights, Fairy tale's trees create a forest of Christmas spirit when displayed together – but a single tree also has a big effect when displayed on its own. They are all adorned with gold details that are hand-painted and make them extremely elegant and simple in their appearance, so that you can easily fit them on the Christmas table.

Mikkeller glasses

Mikkeller and Holmegaard have joined forces to craft a new series of beer glasses, where glass and beer of the highest quality meet in a complete sensory experience.

The series includes three beer glasses and two glasses with the year imprinted on them – one of these is a Christmas glass – all decorated in the Mikkeller brand's eye-catching visual style.

The Cabernet series

The Cabernet series is a classic from Holmegaard, and in many homes this popular wine series comes out both on ordinary weekdays and when entertaining. Light in weight and appearance, the popular wine glasses significantly enhance the experience of not only wine drinking, but also the table setting and the atmosphere. This is because they are designed to accentuate the wine's taste and aroma nuances.

Peter Svarre's glasses are designed to enhance the wine's notes, nuances and potential. But Cabernet isn't just an excellent wine glass that brings out the best in the wine. It's also an extraordinary visual experience. Holmegaard has always been synonymous with unique glass design and a passion for glass craftsmanship, and the Cabernet series is an excellent example of this.

The Perfection series

The Perfection series is a series of wine glasses that gives you and your guests a complete wine experience. Designed and developed with the right features for the correct and optimal treatment of wine, the series is characterised by the distinctive pouring line that splits each glass and gives Holmegaard Perfection an elegant and streamlined look that will suit all wines and table settings.

The elegant and functional Perfection series was designed by Tom Nybroe in 2006, based on Holmegaard's proud tradition of good craftsmanship and stylish Danish design. The distinctive pouring line creates a common thread and an elegant appearance when set with the various glasses in the series. Add the matching water carafe and the table setting will be even more complete and stylish.

Peter Winblad

Brand story

Forget the rules. Forget the norms. Let your home reflect you.
Bjørn Wiinblad is a celebration of the bold, the playful, and the unique.

Designs that aren't just decoration – they are statements.
A mix of quirky details, vibrant colours, patterns, eyes and smiles
brought to life by artistic craftsmanship that will bring character to any room.
Bjørn Wiinblad is for all of us who choose personality over minimalism.
Those who see their home as a canvas for creativity.

Whether it's a vase, a planter,
a candlestick, all types of decoration
you can think of: every piece tells a story – and you make it yours.
Why settle for beige when life can be so much more?
Why follow trends when you can set your own?
Bjørn Wiinblad is for everyone who dares to be different,
and most importantly:
loves to create their own space filled with personality.

Make room for joy

Eva Christmas Ornaments

Eva ornaments in beautiful shades inspired by art from Bjørn Wiinblad's legendary design archive quickly, easily, and decoratively create an atmosphere of joy and creativity that flows into every corner of your home.

Tulipa

Unleash your colourful personality and let your creativity shine with Bjørn Wiinblad's Tulipa. With her bright smile, rose-red cheeks and colourful decorations, Tulipa embodies the essence of Bjørn Wiinblad's love of lavish, both as a person and artist – also when she takes the shape of a vase. Understated and dreamy, she brings life and soul to the interior with her poetic expression and vibrant colours. The shape of the Tulipa vase is inspired by the original Tulipa vase designed by Bjørn Wiinblad himself. With its lively colour palette and unique design, this gloriously offbeat and sumptuous decoration is sure to bring joy into any home – in true Bjørn Wiinblad spirit.

ROSENDAHL

Brand story

Life is always in motion.

9:15 and coffee with friends.
11:00 and the laundry is still in the basket.
17:45 and family time at the table.

It's messy. It's chaotic. And just about right.
At Rosendahl, we believe in celebrating the beauty in every moment
– big, small, and everything in between.

It's design made for life. Not SoMe, not weekends, not passing trends.
Never fragile, nor impractical.

Because life isn't perfect.

If the morning start with a spill, it should end with a smile.
And even if your kid's artwork ends on your tablecloth. It's still art.
And who says leftovers can't feel like a feast?

That's life. And life demands versatile, durable products that will fit in.
And even when they stand out, they'll never overshadow.
Because life isn't about products. It's all about creating moments.

Because every moment matters.
And what you use to shape them should matter too.

Make Moments Matter

Thermoses

Rosendahl Thermoses

Bold industrial meets classic contours. With the new Rosendahl thermo jugs, DayBreak and Stay Warm, you get two newly designed archetypes – the small, rounded droplet shape and the iconic tall, slender silhouette – crafted in a unique material mix with soft lines and tactile surfaces inspired by nature and the warm minimalism of our times. Two new favourites for your stylish coffee break or grand tea gathering – for quiet, early mornings alone, or joyful evenings with friends. Ready at sunrise to give you the best start to your day and let you enjoy an aromatic moment of calm before the world really gets going. And always loyally by your side as the conversation continues and the stories get better and better, carrying you into the night.

With a polished stainless steel interior and a sturdy, beechwood handle, you get the perfect blend of aesthetics and comfort. The intuitive pouring spout helps prevent drips and makes serving easy – whether you're laying the table for lunch or pouring hot tea into a travel mug on a forest walk. This is innovative and intuitive design for all of life's moments. The magic of the morning's first cup, your faithful companion for everyday breaks, and the well-deserved evening tea as calm settles over the day.

Rosendahl Oven dishes & bowls

Created to make moments matter. Crafted to last. Rosendahl's new series of ovenproof dishes is designed for real life – whether you're rushing through a busy week or savouring a slow Sunday. Made to be used. To be enjoyed. And to be seen. Each piece is made from stoneware with a subtly glossy, durable glaze that's easy to clean – and of course, dishwasher-safe. The deep, dark finish adds both edge and calm, lifting everything from leftovers to roasted root vegetables to new heights. The shape is sharp yet soft, with integrated handles that are easy to grip and offer optimal control.

The series was developed in collaboration with acclaimed chef Jesper Vollmer, who brought his professional experience from restaurant kitchens and countless hours in his own kitchen to help shape a design where usability and aesthetics go hand in hand. Made to go straight from oven to table – and to look great doing it. Every detail has been considered, from grip and balance to stackability and storage. A series designed for food with meaning – and for that moment when you serve your dish and truly enjoy what you've created.

RÅ

The RÅ series from Rosendahl is about good utensils in high-quality materials with a focus on good grip and a good user experience. But Rosendahl RÅ actually contains much more than the natural materials and functional design of the kitchen and tableware. Because we need to go a little further back in the process. Yes, all the way back to the beginning.

The unique thing about RÅ is the thought that has gone into the products. They were created together with chef Jesper Vollmer. His experience as a professional chef has been turned into ladles, formed into tweezer tongs and bent into whisks. Jesper Vollmer's many years of braising, turning and tasting have resulted in a series of products with a perfectly balanced weight for your table and kitchen.

Soft Spot Solar Circular

The Rosendahl Soft Spot lantern is designed to bring a special glow to your outdoor moments. The long summer evenings that continue until long after sunset. Reunite with old friends in the garden or enjoy a cosy dinner on the patio, eating, toasting and snuggling into the night. That's how life should be, full of those moments that we want to last forever. The same goes for Rosendahl's design.

We love the cosiness and intimacy of candlelight, and that's the mood elegantly captured by the Soft Spot LED lamp. Here, the flame's flickering glow is transformed into a portable, cordless lighting design that is easily lifted and moved from the living room to the kitchen to the terrace.

See the functions of the lantern here. Scan the QR Code

GRS certified

Rosendahl Design Group is certified to the Global Recycled Standard. The Global Recycled Standard is an international certification scheme for products made from at least 50% recycled materials. The certification scheme requires documented tracking of the recycled content throughout the entire chain, as well as strict requirements for working conditions and chemical handling.

The lantern has solar cells under the shade and the rechargeable batteries can be charged with 100% green sun light, on a clouded day it can be charged with USB and the built-in light sensor will make sure to spread atmosphere both indoors and outdoors.

The Soft Spot Solar is wireless and can be used on the dining table, terrace and anywhere in the home where you want a cozy atmosphere. The light sphere is encased in a black metal frame, which in one elegant stroke, protects the floating light sphere and functions as a stand and handle.

The lamp can withstand weather and wind and can stand outside until minus 20 degrees.

The lantern comes in three different sizes: 18,5 cm, 25 cm and 34 cm.

Specifications

- Manual or automatic mode
- Can be charged both with USB or solar
- USB cable included
- Illuminates for about 15 hours on a full charge
- USB charging time 1-4 hours, solar charging time 7-10 hours
- Can stand outside until minus 20 degrees

Engraving & printing

The proud giver. Either as a discreet logo embossed on the leather strap of the lantern or a logo engraved in the curvature of the glass. The possibilities are many.

An engraving, a print, a logo, a coat of arms, or a text. The possibilities for adding a special greeting, sender or marking to our products are many, and the expression can be elegant and discreet or full of pride.

Our gift retailers know skilled and experienced craftsmen among engravers and printers who know which method is best for the chosen product.

Responsible choice and communication

We aim to make it easy for our customers and end-consumers to make well informed responsible choices, and to guide them in their responsible purchasing. We therefore focus on clear and transparent communication and offering third party certified products within wood, textile and soon plastic.

Certifications

Rosendahl Design Group is certified meeting the requirements of the following standards:

The mark of
responsible forestry
FSC® C140259

Forest Stewardship Council® (FSC®)

Rosendahl Design Group is FSC certified and a member of FSC Danmark. FSC (Forest Stewardship Council®) is an international non-profit labeling system for wood and paper. The FSC label is on products made of wood and paper, which you can buy with a clear conscience. In an FSC forest, no more wood is harvested than the forest can reproduce. At the same time, FSC make sure that animals and vegetation are protected and that the people who work in the forest receive education, safety equipment and proper pay.

Our goal is to phase out non-certified wood, so we in the future only will offer wood products with FSC certification to our customers.

'organic'
Certified by
Control Union,
CU1026087

Global Organic Textile Standard (GOTS)

Rosendahl Design Group works with organic cotton and offers GOTS certified cotton products. The Global Organic Textile Standard (GOTS) is an internationally recognized certification of environmental and social responsibility.

The GOTS "organic" label covers the processing, manufacturing, packaging, labelling, trading and distribution of a textile product. Key criteria include: environmental, social, technical, quality and human toxicity.

A textile product carrying the GOTS label grade "organic" must contain a minimum of 95% certified organic fibres.

Global Recycled Standard (GRS)

Rosendahl Design Group is certified to the Global Recycled Standard.

Products certified to the Global Recycled Standard (GRS) contain recycled material that has been independently verified at each stage of the supply chain, from the recycler to the final product. In addition, certified organizations have met social, environmental, and chemical requirements at each stage of the supply chain.

The Purchase of Global Recycled Standard certified products demonstrate demand for recycled content and best processing practices in the supply chain.

OEKO-TEX® STANDARD 100

Standard 100 by OEKO-TEX® is one of the world's best-known labels for textiles tested for harmful substances.

Many textiles from Rosendahl Design Group are OEKO-TEX® labelled. This textile labelling safeguards consumers from being exposed substances which may be harmful to human health.

OEKO-TEX® certification number: 1876-286 DTI

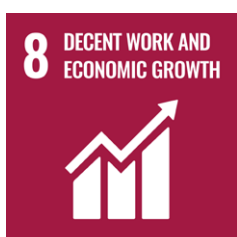

We bring Danish design traditions into the future – responsibly

Danish design holds a special place in the hearts of Danes – both in our everyday lives and as a unique part of our shared cultural heritage. At Rosendahl Design Group, our proud commitment to preserve and develop Danish design icons is how we continue making quality design available to the many. This has been our approach ever since the company was born out of an entrepreneurial family's curiosity and love of design. Today we are inspired more than ever to share and build upon this heritage. We also embrace a responsibility to lead the way when it comes to developing and renewing traditions – ensuring that they are not merely a thing of the past but continue to play an important role in the lives of generations to come. At Rosendahl Design Group, we bring Danish design traditions into the future – responsibly.

UN Sustainable Development Goals

As an international design company, workplace, and business partner with suppliers around the world, we work actively to take responsibility for the impacts we have on the environment, the climate as well as the people involved in our business. The UN Sustainable Development Goals (SDGs) as well as UN Global Compact 10 principles are guiding us in this work. We have identified 5 SDGs which are the most important for us. These are SDG 8, 12, 13, 15 and 17. These include areas where Rosendahl Design Group might have a possible negative impact that must be mitigated, as well as areas where we can contribute positively to a sustainable development with our own actions, and in cooperation with others.

Certified

Corporation

Learn more at
[bcorp.com](https://www.bcorp.com)

Rosendahl Design Group is B Corp certified

The comprehensive B Corp certification is holistic proof that we take a high level of social and environmental responsibility, that we show transparency in what we do, and that we are legally obliged to deliver a positive impact for all stakeholders. We are committed to running a business in a way that promotes positive change in the world that surrounds us.

We believe that good design should not only be aesthetically pleasing, but also functional and durable. It is our goal and commitment to develop and preserve Danish design icons – and to make durable quality design that is widely accessible.

The B Corp certification confirms our commitment to doing business in a way that balances profit with a broader purpose. For us, our B Corp certification reflects our commitment to making positive changes with a holistic perspective, where we continuously commit to strive for and maintain high standards on a social, societal and environmental level.

Based on our societal ambition to bring Danish design traditions responsibly into the future and as a B Corp certified company, we work with social and environmental performance, accountability, and transparency. We work with 5 impact areas which influence the way we do business.

Ethical business

The way we have chosen to structure and manage our business, which enables us to take as much responsibility as possible for the world we share. Today and in the future.

Responsible innovator

The way we have chosen to enrich our customers and all of society, raising awareness of the significance of the unique Danish design traditions – and inspire our customer to act with care.

Value creating workplace

The way we have chosen to build a framework to be a value-creating employer for the people we are so fortunate to have as part of the company.

Engaged partner

The way we have chosen to be a responsible and inspiring partner for our value chain – upstream and downstream – and an integral part of the local community.

Environmentally conscious business

The way we have chosen to structure our business operations so that we play a part in taking the best possible care of the world's resources.
